

The Mister is used for under tree's foliage irrigation of small orchards and flowers, it operates at low pressure.

Water is misted and the Mister can also be used to reduce greenhouses temperature. its low throughput and easy installation make it a very economic system. It can be directly screwed on the pipe or on P4 support.

Nozzle (mm)	Pressure* (bars)	Discharge l/h*	Radius (m)	
			360°	180°
Orange ●	2.0	40	2.5	2.5
Grey ●	2.0	60	2.5	2.5
Green ●	2.0	90	2.5	2.5
Brown ●	2.0	160	2.5	2.5
