

3" plastic disc filter

THE STRONG POINTS :

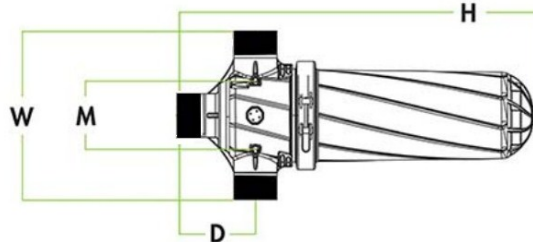

- ✓ Avoids the intrusion of solid particles in water distribution and supply circuits.
- ✓ Filtration fineness.
- ✓ Very easy installation, handling and maintenance.

Technical data

Connection diameter	connection type	Filter type	flow	Filtration area	Box type	Maxi pressure
3"	BSPT	Long	55 m ³ /h	1810 cm ²	B-3	10 bars

Dimensions

W	H	M	D
340 mm	740 mm	140 mm	160 mm

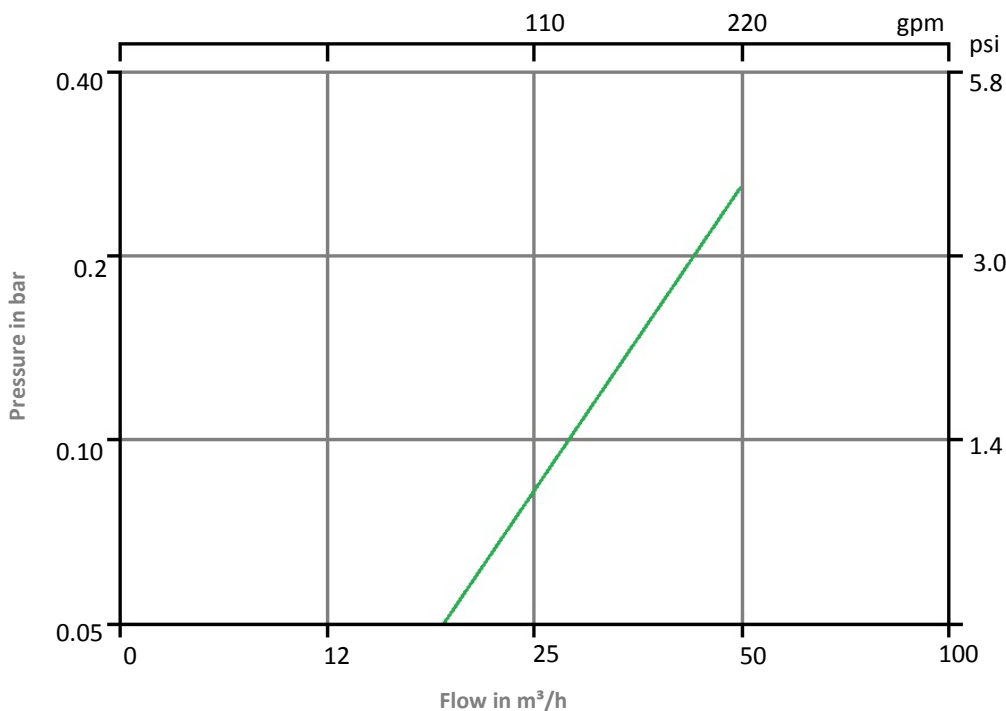

Material :

Body : glass fiber reinforced polyamide

Cartridge: Disc (PP)

Screw : stainless steel

Collar: stainless steel

NB : The results provided relate to internal disc supports of 130 microns, maximum temperature 60 ° c , PH>4.
